

Social aspects of HCI:

DESIGNING FOR COLLABORATION AND COMMUNICATION

Overview

- Conversation with others
- Awareness of others
- How to support people to be able to:
 - talk and socialise
 - work together
 - play and learn together

**What are the various mechanisms
and 'rules' we follow to hold a
conversation?**

Conversation with Others

Conversation

What Happens In Technology-mediated Conversations?

- Do same conversational rules apply?

Technology affects:

- Timing (delayed replies in email/text)
- Emotions (harder to read tone)
- Non-verbal cues (missing facial expressions/body language)

What Happens In Technology-mediated Conversations?

- Do same conversational rules apply?
- Are there more breakdowns?
- How do people repair them?
 - Phone?
 - Email?
 - Instant messaging?
 - SMS texting?

Design Implications

- How to support conversations when people are 'at a distance' from each other?

Design Implications

- Many applications have been developed:
 - Email, videoconferencing, videophones, computer conferencing, instant messaging, chatrooms, collaborative virtual environments.

Email

Video Call

Messenger
Chat

Google Meet

Chatrooms

Design Implications

- How effective are they?
- Do they mimic or extend existing ways of conversing?

Email

Video Call

Messenger
Chat

Google Meet

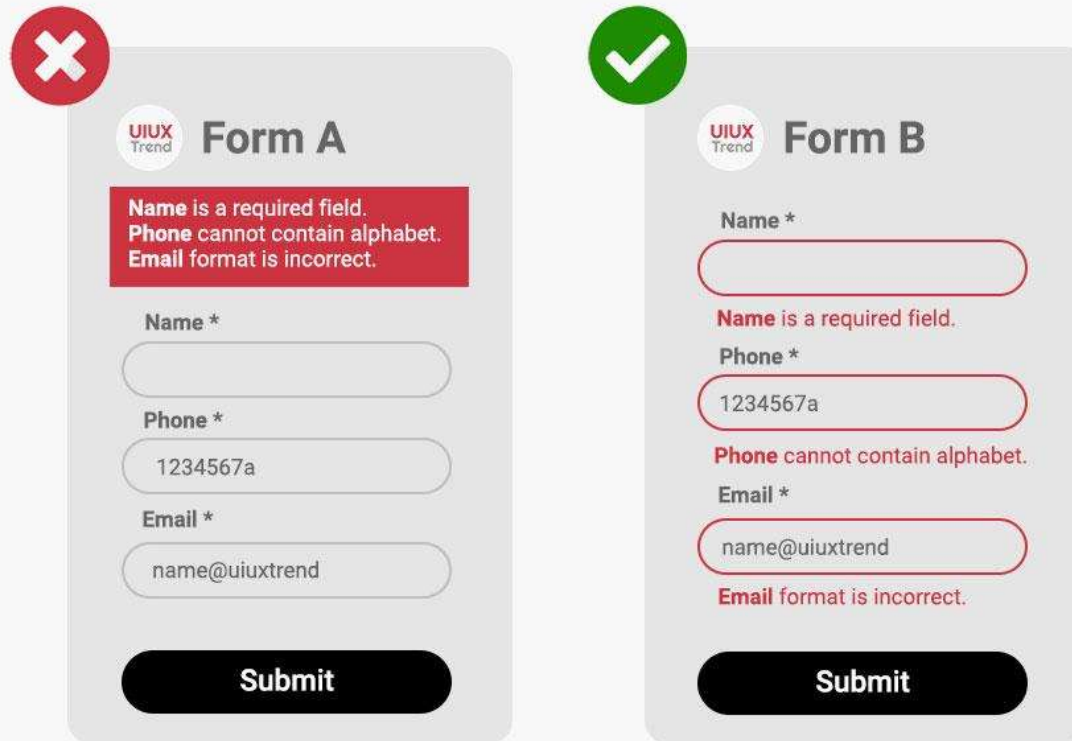

Chatrooms

New Communication Technologies

- Move beyond trying to support face-to-face communication
- Provide novel ways of interacting and talking
- Examples include:
 - SMS texting via mobile phones
 - Online chatting in chatrooms
 - Collaborative virtual environments
 - Media spaces

Error Messages

The image compares two UI/UX error message styles. Form A, marked with a red 'X', shows inline error messages in a red box at the top. Form B, marked with a green checkmark, shows separate error messages below each field.

Form A (Incorrect style):

- Red 'X' icon.
- UIUX Trend logo.
- Form title: Form A.
- Error messages (in red box):
 - Name is a required field.
 - Phone cannot contain alphabet.
 - Email format is incorrect.
- Fields:
 - Name * (empty)
 - Phone * (1234567a)
 - Email * (name@uiuxtrend)
- Submit button.

Form B (Correct style):

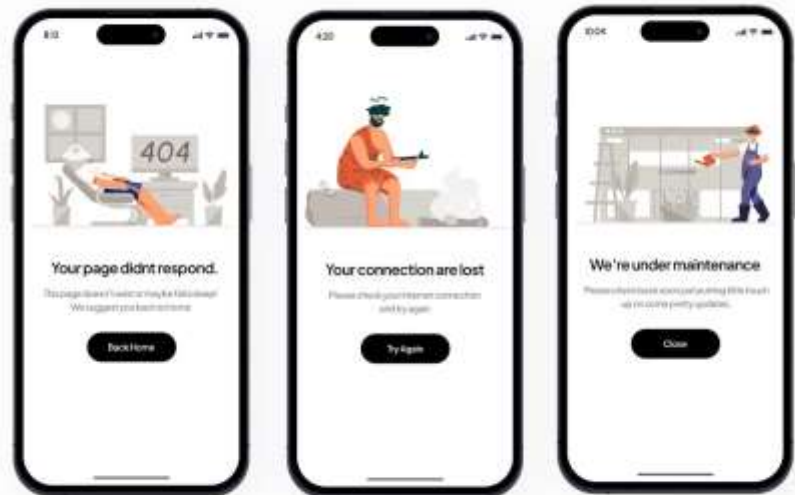

- Green checkmark icon.
- UIUX Trend logo.
- Form title: Form B.
- Fields:
 - Name * (empty)
 - Phone * (1234567a)
 - Email * (name@uiuxtrend)
- Error messages (in red):
 - Name is a required field.
 - Phone cannot contain alphabet.
 - Email format is incorrect.
- Submit button.

Key points

- Social mechanisms, like turn-taking, conventions, etc., enable us to collaborate and coordinate our activities
- Keeping aware of what others are doing and letting others know what you are doing are important aspects of collaborative working and socialising
